

The season ending 2021 was probably the most difficult we have ever faced with the lack of containers, ships and massive increases in shipping costs. Fortunately compared to some we didn't do too badly and shipped 95% of orders with most customers selling out. Let's hope 2022 doesn't follow the same course and we finally get shot of Covid 19.

In this latest catalogue you will find some new designs, new items and a wider range than we have ever offered. Katie Blake is now a top selling collection of Outdoor Furniture; I am very proud of our products and how the brand has progressed.

Normally I along with other directors, visit our factories in the Far East at least four times a year but have not been able to do that for nearly two years. Having worked closely with our factories there is a lot of trust and our Quality Controllers have provided an excellent service keeping faulty goods to a minimum. Developing new products has been very difficult but fortunately we had designed some new items before Covid 19 came along and we have continued to develop these by sampling everything before acceptance.

If A big thank you to all our loyal customers some of whom have been buying our products since we began in 1978. II

I am also proud to say that globally we now employ more than 1000 people and many of our UK staff have been with us for a long time, some as long as 25 years. Our Warehouse Manager Neil is 45 years old and has been with us since leaving school, he still looks 16 to me.

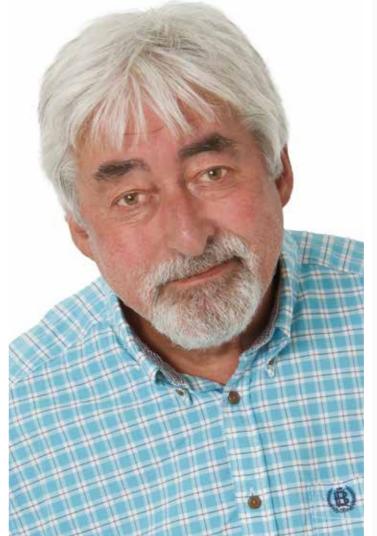

#### THE COLLECTION

Katie Blake use the highest quality and long-lasting materials. We give a full 10-year Guarantee against faulty workmanship for both the frames and the Rattan Weave.
